

What is Love?

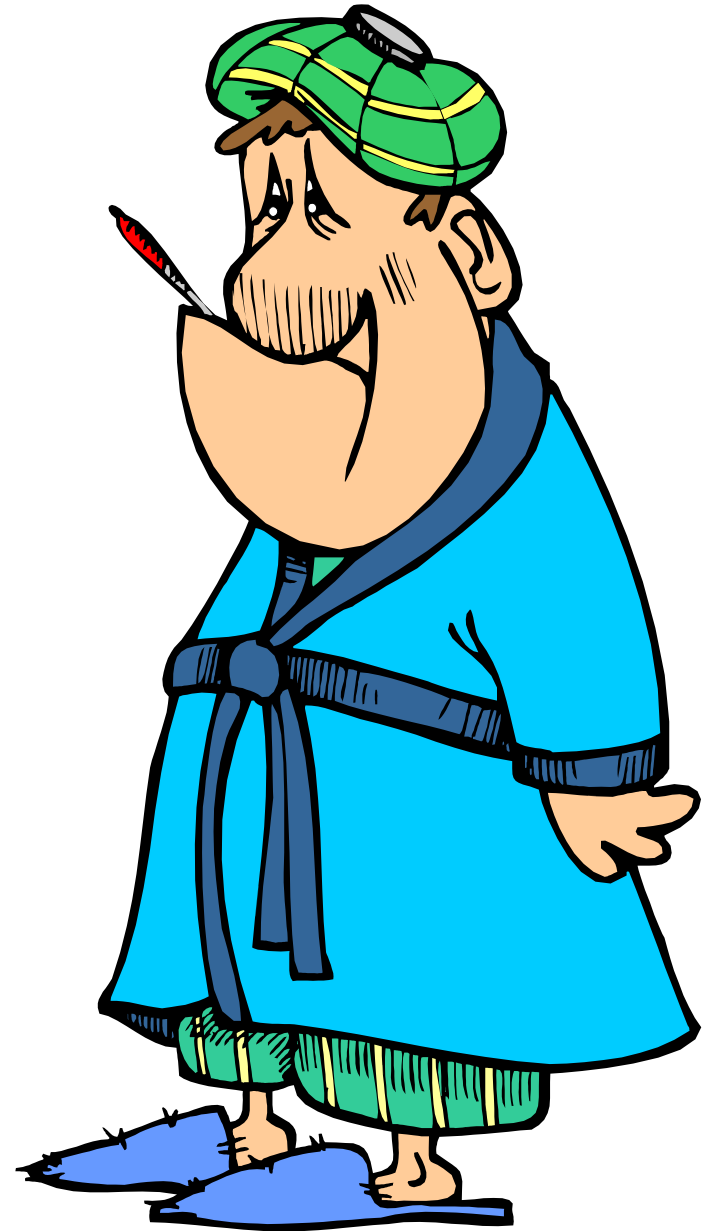

Sandra Ludwick, Patient Safety Specialist
Naval Hospital Cherry Point
February 2006

A Bowl of Chicken Soup?

Factor or Fiction:

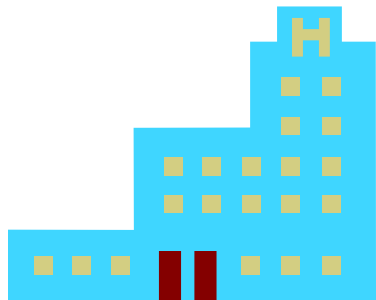

Chicken soup
makes you feel
better when you
are ill?

Mom's make
chicken soup using
a recipe of one part
soup and two parts
love.

If **YOU** go to the doctor or the hospital, do **YOU** want chicken soup?

Of course you do!

Are our patients any
different?

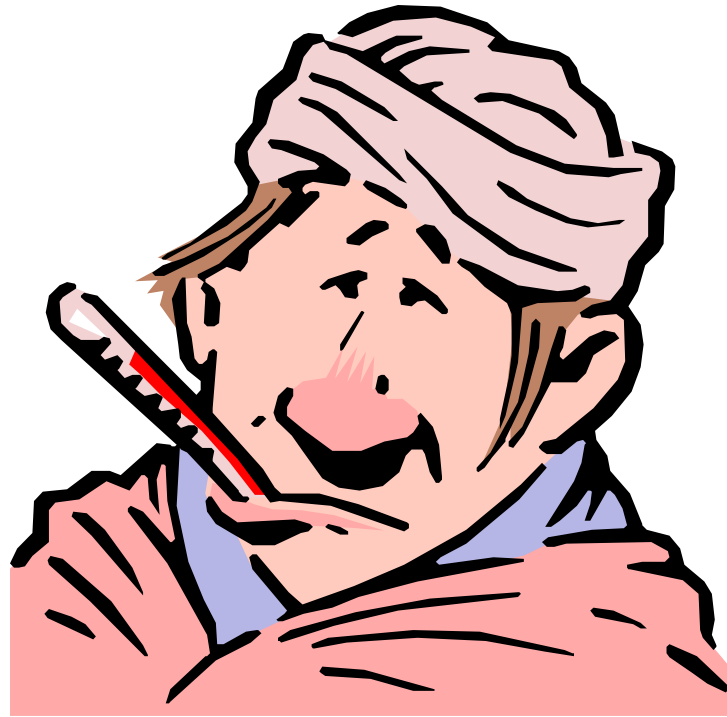

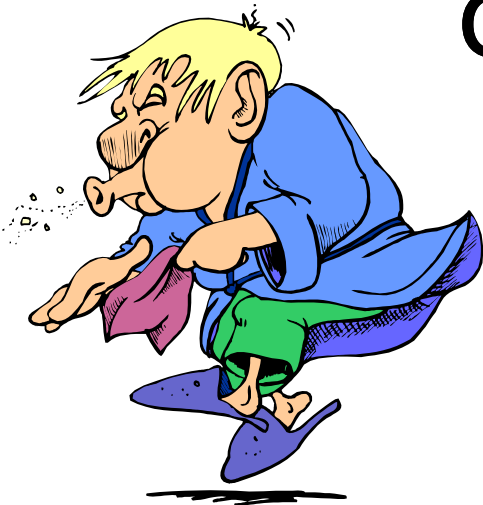

Of course not!

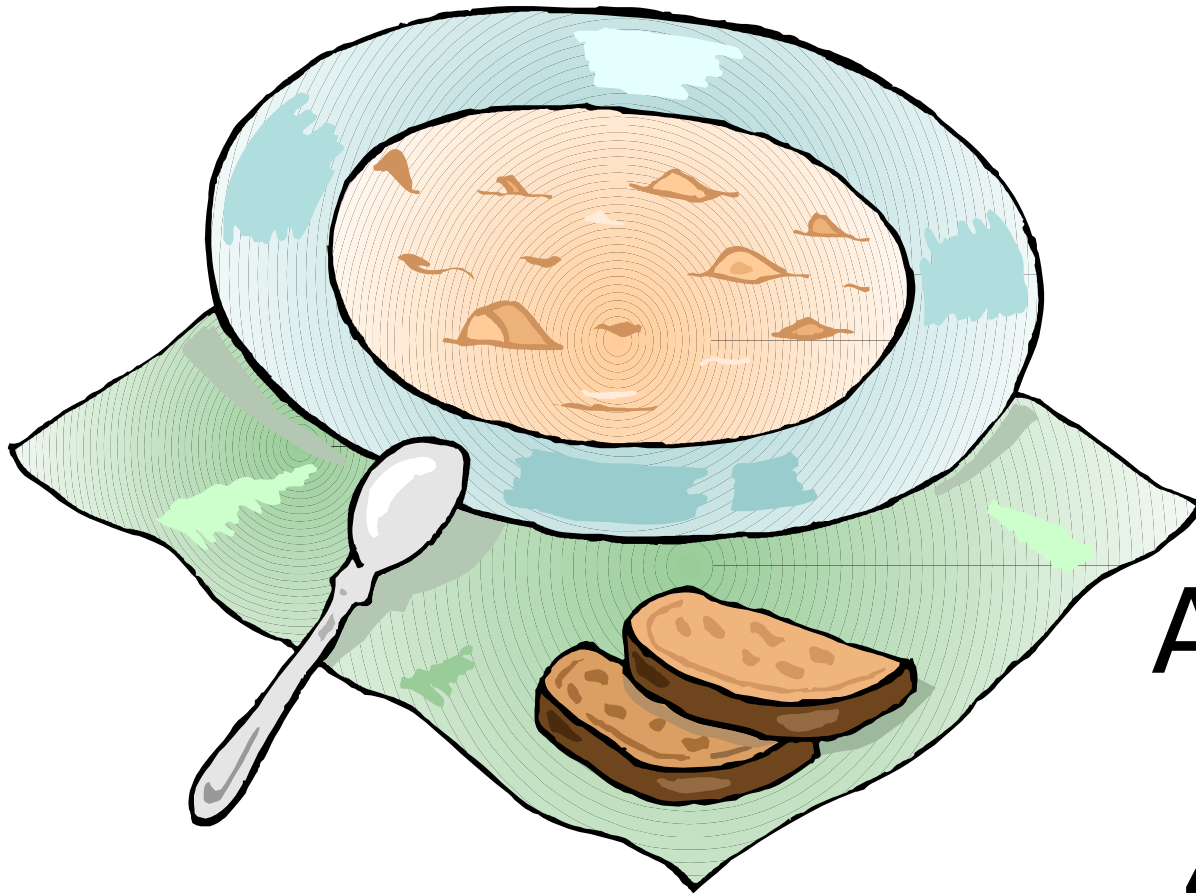

So tell the providers,
nurses
and
other staff

That when our patients come to visit

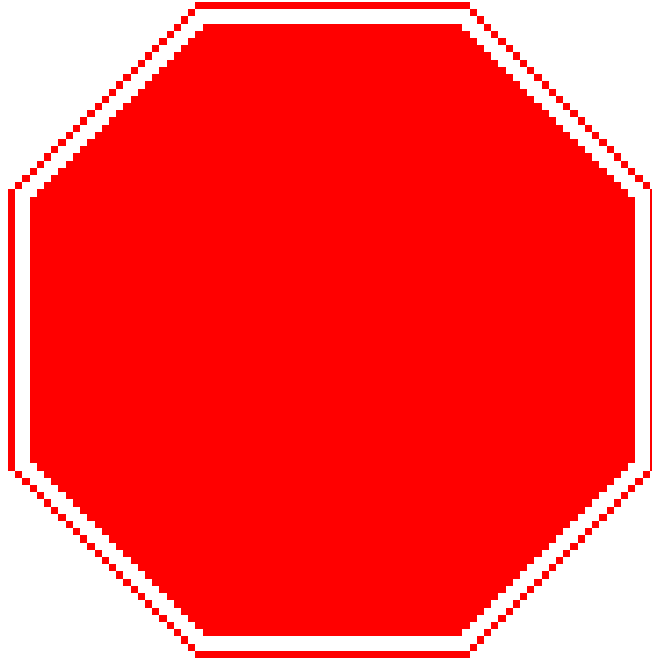

Give them a little “love”

And a big
bowl of
“chicken
soup.”

For without our patients

There is no reason for
healthcare workers to exist.
